

# Best Laptops for Ableton

---

Are you searching for the best laptops for Ableton? If so, then you have come to the right place.

Ableton is music software for those artists who are enthusiastic about being a singer and have a command of music composition. Still, they don't find any helpful software; if so, they don't know about the modern, up-to-date devices or models in the market that could help them. Ableton is Digital Audio Workstation with many innovative features like composing, recording, mixing, editing, or live performance. It is widely used for live performances, and for that purpose, you must have the best laptop for running Ableton without lagging.

We have selected the best laptops to run the Ableton smoothly to help you find a perfect lag-free laptop without any performance issues.

Why go for a powerful high-end laptop if high-end PCs are available? And the answer is the portability issue. It leaves no choice for the user to go for a powerful machine that could bear the audio workloads and smoothly run the extensive and highly effective audio processing software.

## **Requirement & Recommendation;**

The highly effective audio processing software requires;

- A quad-core processor
- Minimum 4-8GB RAM / 16GB recommended
- Solid-state disk (SSD) 256GB / 512GB
- CPU 8<sup>th</sup> Gen Intel Core i5 / 9<sup>th</sup> Gen Intel Core i7
- Display 13.3-inch FHD (1920 x 1080) / 15.6 FHD (1920 x 1080)
- GPU 2GB NVIDIA GeForce MX350 / 3GB NVIDIA GeForce GTX 1050

We don't stop here as we acknowledge all the requirements and recommendations. We're going to help you; if you think you have a laptop that could help you run any software, that's not enough for highly efficient

programs like Ableton Live need the best laptops to run smoothly without lagging.

Without further delay, let's get started with a list of our top picks and many more highly efficient laptops for musicians and artists to fulfill their needs.

So, here we go.

## **Top Picks:**

### **Dell XPS13- 9310 OLED**

13.4-inch, 32GB RAM, 2TB SD

### **Apple MacBook Air**

M1 Chip (13-inch, 16GB RAM, 256GB SSD Storage)

### **Razer Blade 15**

(16GB RAM, 15.6" HD, 1TB SSD)

### **HP OMEN 15-EK0013DX**

(15.6-inch FHD, 16GB RAM, 512GB SSD)

## **Best Laptops For Ableton:**

### **Dell XPS13-9310 OLED:**

Our premium pick is Dell XPS13-9310 with a beautiful screen, cutting-edge Intel "Tiger Lake" processor, and Intel's 11<sup>th</sup> Generation offering exceptional features with a 13.4-inch display; the Dell XPS13-9310 has 32GB RAM, but it also gives a lag-free performance. It provides a full HD view with an incredible picture quality which is breathtaking. It is adaptable to software like Ableton live perfect storage and speedy and efficient performance with long battery timing. It is worth buying for live performances. It's a redesigned model of XPS 9300 and a brand-new version. It is thin, solid, and light-weighted, only weighing about 2.8 pounds in touch screen configuration. Its 2TB SSD gives long-term storage of music. Nonetheless, its powerful graphics gives incredible performance while online gaming streaming and creativity. Its display offers astonishing

accuracy, and without zooming in, its pixels show every minute detail. Its thermal engineering offers dual fans to spread, so the device never heats up in such a thinnest form they've made this factor possible. The XPS features a 6.8% larger 16:10 display, 17% larger touchpad, and an edge-to-edge backlit keyboard with large keycaps. Get immersed in your content,

## **Specs:**

- Brand: Dell
- Class: Ultraportable
- Color: Platinum silver with Black Carbon Fiber Palmrest
- Chip brand: Intel
- Processor: Intel Core i7-1185G7 CPU
- Processor speed: 4.8 GHz (12MB Cache)
- RAM: 32GB DDR4
- Boot drive type: SSD
- SSD capacity: 2TB SSD
- Screen weight: Thin and light touch screen
- Screen size: 13.4 inches OLED
- Screen Resolution: UHD+ 4K Display (3840 x 2400) 400-nit
- Weight: 2.8 lbs
- Operating system: Windows 10
- Graphics processor: Intel Iris Xe
- Wireless Networking: Killer Wi-Fi 6 AX500-DBS+ Bluetooth
- Battery life: 15.02
- Dimensions: 7.82 x 11.64 x 0.58 inches
- Processor count: 4
- Batteries: 1 lithium-ion battery
- Voltage: 7.6 Volts (DC)
- Ports: 2 x Thunderbolt 4.0(power delivery & DisplayPort) (Side)1x Headset Jack (Side)1 x Micro-SD Card Reader (Side)
- Power adapter: 45 Watt USB-C AC Adapter Black battery

## **Pros:**

- Sleek design and style
- Incredibly multitasking
- Vivid screen
- Portable
- High quality & perfect display
- No distortion of pixels
- Long battery life

- Massive storage for long time storage

## **Cons:**

- Expensive as configured
- Limited ports

## **Apple MacBook Air:**

One of the best laptops for Ableton music software & our top pick also. As we all know, Apple is one of the leading brands, famous in mobile markets and the laptop market. It is a well-known worldwide brand, which offers modern, stylish, sleek, stunning, and thinnest models.

Apple MacBook Air is one of those stunning devices by apple; it shows what an Apple Air model is; it has some incredible features which make it more attractive in the technological world and even strongly competes with Intel's Processors. The company has named it SOC M1 chip. It works five times faster than Intel processors. Apple MacBook contains SSD storage and an octa-core processor; it also offers graphic processors. Apple MacBook has an ARM-based processor with 16GB of RAM. A high-end display, 13.3-inch IPS panel, although it does support DCI-P3, which is not used for Ableton.

## **Specs:**

- Brand: Apple
- Series: MacBook Air
- Operating system: Mac OS X
- Display: 13.3-inch wide-gamut 1600P display

- RAM: 8GB to 16 GB
- Hard Drive: 256GB SSD
- Graphic Coprocessor: M1
- Chipset Brand: Apple
- Battery time: 18 hours
- Processor count: 8
- Weight: 5.15 pounds
- Dimensions: 13.8 x 10.4 x 3.8 inches
- Hardware platform: Mac
- Power source: battery powered

## **Pros:**

- Highly optimized Mac OS for Ableton
- Highly efficient ARM-based processor
- High-resolution display panel
- Long Battery life
- Comfortable keyboard
- Better webcam
- Perfect legacy app support

## **Cons:**

- Ports issue
- Low RAM than others yet run Ableton

## **Razer Blade 15:**

Razer Blade 15 is one of the most powerful gaming laptops, that's why it is advanced, and it can efficiently run software or a program like Ableton Live because it offers an octa-core processor, a 10<sup>th</sup> Generation Intel Core i7, that can run with Max speed of up to 5.1 GHz.

This type of gaming laptop with 8GB to 16Gb RAM can efficiently run a Digital Audio Workstation production software like Ableton Live, FL Studio, etc. the most attractive thing about this laptop for all gamers is its display of 15.6 inches which can attract the music composers, because of its color accuracy. Faster than the previous generation, enjoy a quicker, smoother

experience when loading applications, running games, performing a music composition, or running a DAW software. With more exhaust fins, quieter fans, and a larger liquid capacity, the new Blade 15 performs better and is more excellent than ever.

## **Specs:**

- Brand: Razer
- Series: Blade 15
- Operating system: Windows 11
- Weight: 8.8 pounds
- Dimensions: 17.52 x 13.94 x 4.02 inches
- Processor brand: Intel
- Processor: 4.8GHz Core i7 10<sup>th</sup> Gen 8 core processor
- Processor count: 1
- RAM: 16GB DDR4
- Storage: 512 Gb SSD
- Display: 15.6 inches
- Hard disk: 1TB
- CPU speed: 4.8 Hz
- Resolution: 2560x1440 Pixels
- Graphics: 8GB NVIDIA GeForce RTX 2080 super with Max-Q design
- Wireless type: Bluetooth
- Ports count: 3

## **Pros:**

- High power processor
- Battery life is better
- Thunderbolt 3
- 300Hz display
- Slim, sleek and stylish
- Lightweight

## **Cons:**

- High prices

- Speakers are not of a good quality
- Heats up

## **HP OMEN 15-EK0013DX**

If you are looking for a high-performance laptop in the market for Ableton Live, then here is one of our top picks, the HP Omen 15-EK0013DX, which runs beyond expectations. Although it is a gaming laptop, they have more outstanding features like 15.6 inches display and a lightweight, powerful processor. Many more incredible features allow us to do hours of work with music. It offers built-in- stereo speakers, a thunderbolt, a built-in media reader, and a mini display port. This does not contain a built-in DVD/CD drive.

### **Specs:**

- Brand: HP
- Series: OMEN Gaming
- Display: 15.6 inches
- Color: Black
- Hard disk: 512GB SSD
- CPU Model: Intel Mobile CPU
- CPU speed: 2.60GHz
- Processor count: 6
- RAM: 16GB
- Operating System: Windows 10
- Graphics coprocessor: 6GB NVIDIA GeForce RTX 2060
- Resolution: 1920X1080 Pixels
- Wireless type: Wi-Fi 6- 5 GHz Radio Frequency, 802.11ax
- Weight: 5.4 pounds
- Dimensions: 14.1 x 9.44 x 0.89 inches
- Batteries: 1 Lithium-ion battery
- Battery: up to 6.5 hours
- Speakers: 2, Bang & Olufsen
- Bluetooth: 5.0
- Ports: 3

## **Pros:**

- A comfortable keyboard for gaming and music composition
- Wi-Fi 6 and thunderbolt 3 support, an Sd card reader
- Display doesn't gleam suddenly and rapidly
- Awesome pixels response
- Superb color accuracy
- Have an excellent cooling system

## **Cons:**

- Unstable hinges
- Weird location of the power button

## **Acer Predator Helios 300:**

- Acer Predator Helios 300 is another topper gaming laptop with advanced features like a broader display, colossal storage, a fast processor, and a Windows 10 Home operating system. It meets all the requirements to run the music software Ableton Live. Its specs make it a more powerful laptop and of particular importance in the gaming world and music industry for live concerts. Its performance is compatible with Ableton software, so it is the best Laptop. It has 6GB RAM, 10<sup>th</sup> Generation Intel Core i7 10750H 6 core processor with a faster speed of up to 4.5GHz, 15.6" Full HD (1920 x 1080) Widescreen LED-backlit IPS Display (144Hz Refresh Rate, 3ms Overdrive Response Time & 300nit Brightness), it offers Killer Wi-Fi 6 AX 1650i and Killer Ethernet E2600 10/100/1000 Gigabit Ethernet LAN. 4-Zone RGB Backlit Keyboard DTS X: Ultra Audio 4th Gen All-Metal AeroBlade 3D Fan. Another unique feature that makes it more attractive for gamers and musicians is its optimized bass, loudness, and speaker protection with up to 6 custom content modes by an intelligent amplifier. With all its specs and high features, no doubt it's the best budget laptop for Ableton Live.

## **Specs:**

- Brand: Acer

- Product name: Predator Helios 300
- Operating system: Windows 10 Home
- Processor brand: Intel
- Processor count: 6
- RAM: 16GB DDR4
- Hard drive: 512GB SSD
- Chipset brand: NVIDIA
- Wireless type: 5GHz Radiofrequency
- Ports: 4
- Battery life: 6 hours
- Weight;5.51 pounds
- Batteries: 1 Lithium-ion battery required
- Memory speed: 2933MHz

## **Pros:**

- Stylish look with red backlight
- Clear Widescreen, which looks amazing
- Awesome cooling system with built-in fans
- Superb Graphics

## **Cons:**

- Only one USB-C port
- Without any thunderbolt 3

## **Conclusion:**

And there you have it, our list of best laptops for Ableton. There is an extensive range of these instruments, but they are expensive, so it's hard to find the best laptop for Ableton on budget. Nevertheless, if you search enough, you will find the perfect one. If you want to run Ableton Live day and night without lagging, you need a high-quality laptop to run Ableton Live software smoothly, advanced, and highly efficient best laptops.
